CLASSIC COLLECTION

DESIGNER DECK SPAS

Outlast and outshine
any other spa

As the spa industry leader in stainless steel design, Bradford Spas introduces a resort-style amenity to your home that will exceed your expectations. By combining pristine stainless steel with your choice of colorful tile, our stainless steel spas will infuse your outdoor environment with brilliant shine and vibrant color. Our expertise in engineering, design, and structural fabrication provide you with limitless options that harmonize the spa's concept with your property's design to meet your architectural and relaxation goals.

Durable stainless steel construction of each Bradford spa gives you time-tested reliability that stands up to the toughest outdoor elements, so you can relax and enjoy your spa knowing that it will endure the rigors of everyday use and look its best for years to come. And your Bradford spa is 100% recyclable after its long life, making it an environmentally responsible choice.

25-Year Warranty

Built for strength and reliability, Bradford stainless steel spas give you the quality and durability your outdoor space deserves. Backed by our 25-year warranty, you can expect your stainless steel spa to last a lifetime.

Custom Spas

Bradford's experience in aquatic design opens the doors to limitless possibilities for your custom spa. Create your own size and shape, customize your specific hydrotherapy jet positions, and choose your particular tile color and texture to create a truly unique spa. Further personalize the spa with water features, LED/fiber optic lighting, waterfalls, infinity edges, and specialty seating. With so many options to choose from, the design and style of a custom Bradford spa is only limited by your imagination.

Bradford's experienced designers understand that each custom spa project is an extension of the individual style and architecture of the home. We work directly with designers, architects, landscape architects, and homeowners to ensure that your vision becomes a striking and functional reality.

Infinite Possibilities

Your home's unique relaxation space deserves more than something that comes off a shelf. Let us create your spa with any one of a number of features including infinity edges, waterfalls, acrylic viewing windows, or custom tile.

SwimSpas®

Bradford has taken the very best we have to offer in pools and spas and combined them to give you an exercise machine that's fun, reliable, and relaxing. Bradford SwimSpas® allow you to have a challenging exercise experience and a relaxing spa all in one space-saving location. Swimming is one of the best ways to keep a healthy mind and body and alleviate the stresses of everyday life. Bradford stainless steel SwimSpas® provide you with a convenient way to stay commitment to wellness, giving you years of enjoyable aquatic exercise. Unlike other systems that rely on air to create flow, our system is 100% hydro-powered. Bradford guarantees a SwimSpa® that you can depend on to deliver wellness you can expect for a lifetime.

Personalized to Perfection

Bradford gives you the opportunity to configure your SwimSpa® for your particular space with custom sizes, finishes, seating preferences, and jet positions. We want you to have the perfect combination of features that fit your personal style.

Classic Collection

Bradford's Classic Collection offers you a timeless spa engineered for permanent in-ground and above ground applications. To enhance the quiet, serene experience of relaxing in a Bradford spa, the equipment platform is positioned apart from the unit, unlike typical spa units. We also provide you a convenient frame-mounted equipment option for environments with limited space. Choose from eight shapes and sizes to fit your particular seating preference, style, and setting.

Topsail	Hatteras	Newport	Hanover	Carolina	Wilmington	Southport	Hampton
							
84" x 84" 4-6 adults 16 jets 375 gallons	83" x 83" 4-6 adults 16 jets 313 gallons	80" x 80" 4-6 adults 8 or 16 jets 323 gallons	87" x 87" 6 adults 8 or 16 jets 364 gallons	80" x 80" 4-6 adults 8 or 16 jets 331 gallons	87" x 87" 6-8 adults 8 or 16 jets 425 gallons	84" x 66.5" 2-4 adults 14 jets 330 gallons	99" x 87" 8 adults 16 jets 462 gallons

Designer Deck Spas

If the ideal location for a relaxing spa is on your deck, then our Designer Deck Spas are the perfect solution. Created as all-in-one units, the Kinston and Charleston are designed for deck installation, with convenient access to the frame-mounted equipment behind the custom skirt panels.

Charleston	Kinston
	
93" x 93" 2-4 adults 8 jets 431 gallons	93" x 93" 2-4 adults 8 jets 431 gallons

Striking Finishes

Our spas raise the industry bar further by offering you three types of distinct finishes, including full tile, all stainless steel, or a unique combination of both called tile trim. With Bradford's tile trim option, the floor; seats, step treads, waterline, and top lip are finished in your tile choice. The walls and step risers are then finished in non-directionally buffed stainless steel creating a sleek, vibrant look.

Choose your distinct color and style

Showcasing your unique style is easy with Bradford's wide selection of exquisite stone, reflective glass, ceramic tile, waterline combinations, and customized tile. Choose a finish style that gives your outdoor space a sensational distinction.

Your Equipment

Matching the superior quality and reliability of the vessel itself, our spas are designed with the highest quality equipment systems, components, and hydrotherapy jets. Bradford engineers commercial grade equipment and systems to suit the individual spa's requirements.

Ease of Installation

Our spas are designed to ensure ease of installation. The spas are assembled on the self-supporting stainless steel frame with two options for your equipment system: frame mounted to the spa or contained on a remote equipment platform connecting to the spa nearby. Whatever your particular size, shape, and configuration might be, we will provide a system that best suits your particular spa and its environment.

Access Any Time, From Anywhere

Controlling and scheduling the operation of your spa has never been so easy. From standard spa-side controls to sophisticated home automation, we configure your spa to fit your specific needs and integration system. Whether you prefer a standard control panel or want to access your spa remotely from wherever you might be, we offer you easy and convenient options.

Your System

We are committed to making your spa enjoyable, relaxing, and most importantly—reliable. Our spas are equipped for quiet and efficient operation. Engineered to provide optimum performance, your Bradford spa system is built to last for years to come.

Our Tradition

Bradford Spas introduced the first stainless steel residential spa in 1982. Since then, our parent company, Bradford Products, has become the leader in design and fabrication of pools, spas, therapy pools, SwimSpas®, day spa thermal rooms, water features, and other custom specialty features. As the premier manufacturer and trusted experts in stainless steel fabrication, our world-class products are featured in facilities and homes throughout the United States and internationally.
